CareLink[®]
7100 Series a product of Healthcom

Your CareLink[®] provider is:

CareLink:

- *Helps seniors live longer, healthier and more independently.*
- *Gives caregivers and family peace of mind.*
- *Provides protection 24 hours-a-day.*
- *Is supported by knowledgeable, caring staff.*

Simple to use

CareLink equipment is very reliable and provides excellent voice quality – offering hands-free, 2-way voice capability throughout the entire home. Weighing less than half an ounce, the waterproof pendant is the smallest unit of its kind. It can be worn either as a pendant, wristband or belt clip. For assistance, you simply press the pendant or emergency button. Special adaptive devices are available for those who have difficulty or are unable to press the button.

CareLink is a personal emergency response system designed to reduce complications associated with a fall or other health-related emergency by ensuring prompt assistance.

Healthcom provides tools that help seniors live independently in their own homes.

1600 West Jackson Street

CareLink is an approved program used by state and federal agencies nationwide.

Help at the touch of a button.

Making Our Customers Feel Safe

"Last September I slipped in the bathroom. I couldn't get back up, and my hip didn't feel quite right, so I decided to push the button. I asked the woman who answered my call to send my brother over to help me. When my brother arrived, he thought I needed an ambulance so he pushed the button again and asked the woman to call one for us. Getting help right away meant that my injury was not as bad as it might have been and I was back home soon."

Marie

Easy installation & support

The CareLink unit is easy to install and can be quickly connected by a certified CareLink installer or by a family member. Our staff is available to make sure your unit is installed properly, and that you feel comfortable using it.

Our Support Center is there for you 24 hours-a-day every day. You can feel safe knowing that if a need arises, help is just a pendant press away.

Internet access for family & caregivers

Family Access Anywhere® is an optional, free service, which allows caregivers and health care professionals, with your permission, to view specific activity about your CareLink services. This may include requests for assistance and equipment status depending on the services used. You decide who has this access and can provide it to as many friends as you like.

Dollars & Sense of CareLink

- Affordable monthly fee
- Special funding available in some states
- No equipment purchase necessary
- No long term contract

CareLink meets all federal standards for Home Monitoring Devices (UL-1637).

Audio messages will alert you that the unit has been activated.

Plugs into phone line and electrical outlet.

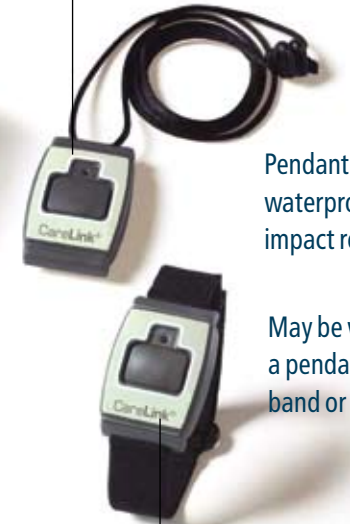

Light comes on when activated.

7100 Series

A back-up battery operates the unit in the event of lost power, and automatically recharges.

Easy-to-reach emergency button. Braille labels identify each control for visually impaired users.

Pendant is waterproof and impact resistant.

May be worn as a pendant, wrist band or belt clip.

Press the button to contact assistance, or to answer phone calls through the base unit.
