

MedReady+

a product of Healthcom

MedReady+ offers low-cost, highly reliable medication management.

Help ensure your loved one is taking the right medications, in the right dose, at the right time. MedReady+ provides reliable dispensing of solid medications up to 4 times per day for 7 days, with both audio and visual reminders and optional assistance from our 24/7 Support Center.

MedReady+ features:

- **Programmable to dispense up to 4 times per day**
- **AC adapter with battery backup**
- **Large, easily accessible medication door**
- **Lock and key to prevent double dosing**
- **Audible and visual alerts**
- **Easy-to-read LED clock**
- **Automated internet-based reporting of all Support Center interventions**
- **Compatible with CareLink®**

MedReady+

a product of Healthcom

MedReady+ works hand-in-hand with CareLink® Personal Emergency Response Service, which allows our attendants to quickly summon help 24/7 whenever assistance is needed.

CareLink®
Help at the touch of a button

If medication is not taken when scheduled, the MedReady+ alerts the CareLink® unit, which automatically calls our 24/7 Support Center. An attendant can talk directly to the client through the CareLink® device to determine if assistance is needed.

MedReady+ also includes a free subscription to Family Access Anywhere®

so family members and caregivers can stay involved by monitoring the service through a secure website.
